SHARED A
TAXI

For shared a taxi, after chosen an address, system load the tab Arrive to, that is the same

in favorite address we can select from a list of address

in current location, after connect with GPS, see the map (like google maps)

in new address we can add a new address

Departure from:

Favorite address

Current location

New address

After the end of the booking process: the taxi driver accept the call and I accept the estimed time

⚠️At *estimed_time* the taxi driver *taxi_driver_code* (*phone_nr)* will arrive, be at the pick up point in time!
